**Maths**

Addition and subtraction

The children will be focusing on the way to secure understanding of place value underpins rounding, mental addition and subtraction, and column methods of addition.

**Addition and subtraction**

The children will be focusing on the way to secure understanding of place value underpins rounding, mental addition and subtraction, and column methods of addition.

**Time**

The children will be focusing on time-telling on digital and analogue clocks, and the calculation of time intervals; these are used in solving word problems.

**Place value; subtraction**

The children will be focusing on using number lines to facilitate an understanding of place value in 3-digit numbers, and as an efficient method of performing subtraction involving 3-digit numbers.

**Multiplication and division**

The children will be focusing on developing multiplication strategies using doubling and halving and the grid method; division is related to multiplication and this relationship is used to solve missing number problems.

**English**

**Fiction - Descriptive writing**

In this unit, the children explore and compare legends. They read the interactive texts and watch a film, understanding plots and features of legends then recalling and retelling main events. They use drama to explore characters and dilemmas. They discuss punctuation, learning how to write dialogue. They plan, edit and write their own legends, following a familiar structure.

**Grammar**

- To generate synonyms for high frequency words, such as 'big', 'little', 'good'.
- To understand what a prefix is and to know that a prefix changes the meaning of a "root word".
- To use adjectives and expanded noun phrases to describe and specify.
- To use a wider range of conjunctions; Use and understand the grammatical terminology in Appendix 2.
